

CNC MILL SPECIALIST

CRB Manufacturing Inc. is a small, family-owned metals manufacturing job shop located in Clackamas, Oregon. Since 1948 CRB has provided machining, stamping and tooling solutions to a variety of industries throughout the United States and abroad. Through the core values of quality and teamwork, CRB strives for continuing excellence in people and process. If you are a 21st century maker, enjoy working with your hands, and appreciate a creative shop environment – then we want to meet YOU! CRB is looking for qualified candidates with a passion for making things, and is now accepting resumes for the following position:

CNC Mill Specialist

If you are an independent, technically sophisticated, set-up savvy machinist, then this is the opportunity for you. Our ideal candidate excels at the code and the craft and gets personal satisfaction from hitting rate with zero defects. This important position works directly with programmers and other machinists to produce parts from our growing fleet of HAAS and MORI multi-axis mills. Essential functions include: edits to G&M code at the machine, set-up and work holding device design, and analysis of engineering drawings. Cutting tool expertise and detail-orientation are also key mindsets. Ask yourself:

- ✓ **Do you have 2+ years of CNC milling machine experience** in a job shop environment?
- ✓ **Can you bring a working knowledge of raw materials and common advanced manufacturing processes** to hit the ground running on day-one?
- ✓ **Do you enjoy working in a collaborative environment** where you're expected to contribute top-notch ideas and technical skills?
- ✓ **Are you generally excellent at math applications?** Do tool offsets and unit conversions challenge you in a good way?
- ✓ **Do you believe in the power of small business?** Can you thrive in a progressive team atmosphere where your contribution really counts?

If you answered YES to the questions above, then we want to hear from YOU!
